SOCS
Connecting Communities

# Mobile used to be a trend. Now it's the norm.

68% of U.S. adults (and 86% of 18- to 29-year-olds) now have a smart phone. So now and into the future, you need to be sure your website will be readable and look beautiful whether viewed from a smart phone, a smart watch, tech-enhanced glasses, or the next big thing. At SOCS, our websites are optimized to display appropriately on any mobile device.

## Design Features

1. Customized by desktop website's primary color
2. "Menu" button expands or collapses the section navigation
3. Scrolling HTML banner option for breaking news items
4. "Extra" button expands and collapses the right-side navigation
5. "Top Stories" rotates featured articles
6. Footer provides: school information, news updates and the ability to toggle between desktop and mobile websites
